

**CLAIMS**

Claims 1-20 are deleted.

Claims 21-28 are added, as shown on sheets 14-15.

**CLAIMS:**

What is claimed is:

21. A sports equipment accessory for storage and retrieval of sports equipment comprising:
  - a tubular shaped mesh body having a top and a bottom;
  - means for hanging said mesh body;
  - means for storage of at least one sports ball;
  - means for dispensing of said at least one sports ball;
  - means for collapsing said mesh body;
  - means for accommodating an air-pumping device, and
  - means for holding small sporting paraphernalia.
22. The sports equipment accessory for storage and retrieval of sports equipment according to claim 21, wherein said means for collapsing said mesh body is comprised of flexible members operably connected to a first circular hoop disposed in said top and a second circular hoop disposed in said bottom.
23. The sports equipment accessory for storage and retrieval of sports equipment according to claim 22, wherein said means for hanging said mesh body is comprised of at least one circular ring disposed in said top; at least one rope operably connected to said at least one circular ring and at least one hooking device.
24. The sports equipment accessory for storage and retrieval of sports equipment according to claim 23, wherein said means for dispensing of at least one sports ball is at least one opening in the front of said mesh body, wherein said at least one opening is dimensioned to allow the dispensing of said sports ball.

25. The sports equipment accessory for storage and retrieval of sports equipment according to claim 24, wherein said means for dispensing of at least one sports ball is further comprised of an elasticized opening in said bottom.
26. The sports equipment accessory for storage and retrieval of sports equipment according to claim 25, wherein said means for holding small sporting paraphernalia is a pocket affixed to said mesh body.
27. The sports equipment accessory for storage and retrieval of sports equipment according to claim 26, wherein said means for accommodating an air pumping device is an tubular piece of border material.
28. The sports equipment accessory for storage and retrieval of sports equipment according to claim 27, further comprising at least one sports ball.
